

## **Staff Dress Code**

Employees are to be the exemplars to the students in all aspects. Faculty and staff are to dress in a manner so this is clearly evident to all student, parents, and visitors to the school. Faculty and staff are to dress better than the requirements for the students. Logos, jean material, and T-shirts are not allowed.

Staff members should dress modestly and professionally at all times. Jeans, t-shirts, and other casual garments are not appropriate when representing the school. Shoulders and cleavage must never be shown. Shoes must always be worn. Sandals are considered casual attire and therefore, not considered professional. The one exception to this rule is Physical Education, in which teachers are expected to dress appropriately for their assignments.

Acceptable Attire for Staff:
